

Product Description

Our fully recyclable mono-material airless dispensers protect and enhance your formulas while helping the environment. Made with 100% PE & available for customization.

Because the products have zero exposure to air, they can stay fresh almost three times longer. The ingredients also are preserved and remain active and at their highest concentration.

Product Benefits & Features

- 100% PE recyclable: no need to disassemble it
- Rigid, Piston Airless System
- Leak-proof / capable to withstand the harsh e-commerce shipping environment
- Lightweight design
- Customizable color and decoration

APG-200147
