CREAM PUMPS

We focus on quality, functionality and attractive designs. In our cream pump range, you will find creme pumps with various attachments and outputs.

All pumps can be provided in various standard colours, so your cream pump can have the exact look you are after. Covering cream pump sockets with a “silver” or “gold” overshell gives the cosmetic packaging a more exclusive look, while a clean white pump solution on white cream packaging gives it a more clinical feel. Soft tones on the bottle, as well as the cream pump, signals tenderness and care for sensitive skin types. The possibilities are numerous.

**PACKAGING
THAT SUITS
YOUR NEEDS**

TRIGGER SPRAYERS

At Packwise, we have an exclusive selection of trigger sprayers. A wealth of different designs, colour combinations and sizes allows for a myriad of possibilities for combining the exact trigger sprayer and bottles to give the product the desired expression.

Differences in the cap design, colour combination, nozzle functions and ergonomic grip on the trigger makes it possible to give this standard product a unique feel, which makes your product stand out in the crowd.

MIST SPRAYERS

Here, you can find our selection of finger sprayers and mist sprayers. These sprayers atomise liquids from low to high viscosity. Our finger sprayers can dispense everything from oil to perfume.

Our finger sprayers are provided in a rich selection of colours and designs, so no matter if it is a fine mist of perfume, glasses cleaner or cooking oil you wish to dispense evenly with a light blow from the sprayer, we have the solution which best suits your product.
