

STÖLZLE GLASS GROUP

CONSUMER SPIRITS & FOOD

YOUR PRESTIGE GLASS PARTNER

www.stoelzle.com

YOUR PRESTIGE GLASS PARTNER

Stölzle Glass Group is made up of six European production sites, which follow their strategic focus to manufacture high-end glass packaging for the Perfumery & Cosmetics, Prestige Spirits as well as Healthcare & Consumer markets. International sales companies in the USA, Russia and France enable Stölzle Glass Group to provide a class leading customer service. Stölzle's company vision is based on a culture of mutual trust, highly reactive to customer needs and utmost flexibility and reliability. We strive to be the preferred long-term partner of both clients and our employees.

Glass is the ideal packaging for food and beverages

Glass shows food at its best, tempting the eye before delighting one's taste buds. Glass offers many marvelous qualities beyond its obvious visual appeal. Standards of glass quality and state-of-the-art quality control technology ensure that neither appearance, taste, aroma or ingredients, however delicate, will be affected by being packed into glass packaging. This applies to top our leading spirits brands as well as for foods packaging.

The virtues of glass packaging for foods are well known and recognized maintaining the foods' quality over a long period. Glass also reduces waste and saves energy helping to protect the environment.

Product range

Stölzle Glass Group offers a wide range of standard products for liqueurs, mini spirits, mini jam jars and spices. In addition, the six European glassworks specialize in the development and production of custom designs for a wide range of products, meeting our customer demands for unique standard and promotional items.

We are specialized in the production of miniature spirit bottles in white flint, amber and green glass. The smallest miniature spirit bottle currently produced is 20ml with a weight of 25grams.

Mini Spirits	5
Spirits	8

Size 215ml - 500ml	15
Size 540ml - 1000ml	18
Mini Jam Jars	20
Caviar Jars	22

STÖLZLE SETS QUALITY STANDARDS IN GLASS PRODUCTION

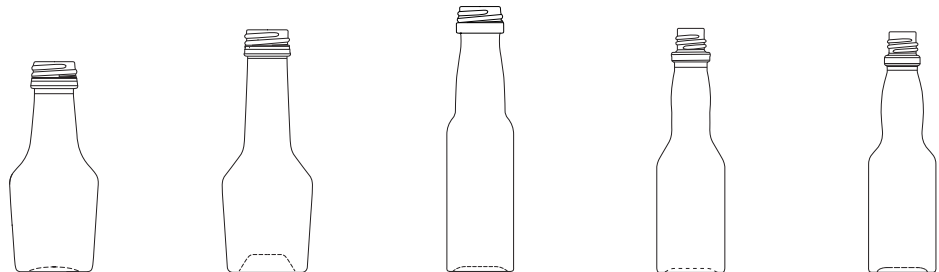

The Austrian headquarters of the Glass Group was the first European manufacturer to meet GMP (Good Manufacturing Practice) guidelines, and was awarded an Austrian certification (Austria Gütezeichen). Further progress was made when reaching the BRC/loP standards for food packaging and obtaining the official certification in autumn 2009. Each of our plants in the Glass Group have ISO 9001. In addition and depending on the strategic orientation of the production site, they manufacture either according to GMP (ISO 15378) or standard guidelines for food packaging.

Environmental Policy

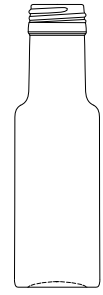

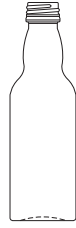

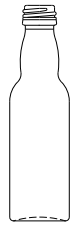

As a manufacturer of an environmentally friendly packaging material, we are aware of our responsibility to keep our ecological impact as low as possible. Hence our corporate policy and energy management within the Glass Group adhere to the principles of ISO 50001. Stölzle evaluates and optimizes the consumption of energy in all aspects of glass production. The relevant information relating to our energy management can be made available for public authorities, clients and certification authorities. We pride ourselves to respect the legal regulations in the field of energy. We will strive to purchase energy efficient products and will always consider energy relevant criteria when setting up new production processes or expanding our facilities. We welcome any auditing process concerning our energy policy.
