# SPIRITS

STANDARD COLLECTION

Stölzle Glass Group is made up of six European production sites, which follow their strategic focus to manufacture high-end glass packaging for the Perfumery & Cosmetics, Spirits and the Pharma markets. International sales companies in the USA and Russia enable Stölzle to provide a class-leading customer service. Stölzle's company vision is based on a culture of mutual trust, highly reactive to customer needs and utmost flexibility and reliability. We strive to be the preferred long-term partner of both clients and our employees.

Glass is the ideal packaging for beverages. Glass shows the filled product at its best, tempting the eye before delighting one's taste buds. Glass offers many marvellous qualities beyond its obvious visual appeal. A consistently high glass quality and state-of-the-art quality control technology ensure that neither appearance, taste, aroma nor ingredients, however delicate, will be affected by being packed into glass containers.

Glass also reduces waste and helps saving energy in order to protect the environment.
