# TENSE TUBE

The combination of a perfect  
and fresh application

**COSMOGEN**<sup>®</sup>  
Brushes & Packaging

**TUBE TENSE: LUXURIOUS APPLICATOR** ideally designed for formulas that require an original package with **DUAL FUNCTION**.

## BENEFITS

### Metal:

- Strengthen the formula efficiency
- Tightens and smooths the skin
- Stretches fine lines
- Reduces puffiness by the cooling effect
- Relaxes micro tension
- Stimulates lymphatic circulation
- Perfect weight and metal finish

### Cannula:

- Ergonomic and precise application
- Application for a gentle perfect touch
- Adapted to the delicate eye area

### Dual Function:

- Easy to wash metal applicator
- Product does not get back into tube
- Helps to control dispensing of product

### Suitable for :

- Make up (Conceder, cc, cream)
- Skincare (eye contour, lip contour, anti-wrinkles treatment, spot or D-scar treatment, lip balm)

- Eye area
- Lip area

## CUSTOMIZATION:

### COLOR

Make your own unique product by customizing the color of tube and applicator.

**Metal:** Available in silver, gold, black and gun metal.

**Cannula & Tube:** Entirely customizable color.

### SHAPE

Choose among 2 available shapes or make your own unique applicator shape.

#### Round

- Pretty look : long zamac dress
- Very large surface of zamac
- Freshly longlasting effect : the applicator remains cold during application on both eyes.

#### Triangle

- Perfect matching with the line of eyes and lip
- 3 precise corners for reaching in hard areas and efficient massage
- Domed bottom filled and contours the natural eye and lip shape

• • •

#### Yours

Imagine the ideal shape to combine to your formula.

## ROCK YOUR EYE TREATMENT!

### TEXTURE

Choose among 6 available textures or make your own unique applicator texture.

#### Waves

- Perfect stretching of the skin.
- Ideal for firming and anti-wrinkle treatment.

#### Hexagons

- Enhances the lymphatic circulation and reduces puffiness.
- Ideal for fluid formulas (cream ...)

#### Bumps

- Strong massage effect.
- Stimulates the lachrymal gland that makes the eyes whiter.
- Ideal for fluid formulas (cream or serum...)

#### Circular

- Apply thicker formulas by relaxing the eye contour.
- Combine finger touch with cooling effect.
- Ideal for treatment : gel, mask, etc.

#### Smooth

- Perfect smoothing of product.
- Ideal for fluid formulas (cream or serum...)
