At TriMas Packaging, we understand the importance of a brand and the substantial investment and value associated with it. With over 100 years of expertise, we take immense pride in the fact that our global customers trust and rely on our market-leading brands to safeguard their brands throughout the entire life journey of their products.

Our mission is to safeguard and enhance your brand by delivering high-quality packaging solutions that excel in demanding fulfillment channels, promote sustainability and effectively prevent tampering, damages, leakage, unauthorized access by children and counterfeiting risks.

We leverage our expertise to develop solutions that protect your brands and products and elevate them to new heights. We are committed to creating packaging solutions that go beyond protection, empowering your brand with enhanced visibility, appeal and market presence.

AIRLESS DISPENSERS

Cosmetic

Experience the ultimate solution for your cosmetic packaging needs with our airless dispensers. Our airless dispensers offer a variety of benefits that elevate your cosmetic products to new heights, such as high-quality, contamination reduction and extended product life. Unleash the power of innovation and give your customers an extraordinary experience that sets your brand apart.

Key Features

- Airless technology blocks out oxygen and preserves the integrity of the formula
- Prolongs the life of your product
- 98% product evacuation ensuring minimal product waste
- Designed to dispense the exact dosage

Customer Benefits

- Reduced Contamination: Designed to preserve the quality of your formulation by minimizing contact between the product and external elements, such as air, moisture and bacteria
- Premium Look and Feel: Our airless dispensers offer a premium look and feel that enhances the overall aesthetic of your serums, oils, anti-wrinkle creams and more
- Extended Product Lifespan: Our dispensers prolong the life of your products by minimizing exposure to oxygen and other environmental factors

Technical Information

- Container Capacity: 7ml to 200ml
- Material Options: AS/PP, Aluminum/AS, PP, Aluminum/SAN, ABS/AS/PP, ABS/Acrylic, ABS/AS, PP/LDPE, Acrylic/PP, Acrylic/PE, ABS/Acrylic/PP

Selene Airless Dispenser

AIRLESS DISPENSERS

Pharmaceutical

When it comes to preserving the integrity of sensitive skin care formulations, especially in the pharmaceutical market, our airless dispensers are the perfect solution. Crafted with meticulous precision, these innovative pumps are designed to handle viscous formulations that are usually extremely difficult to dispense effectively. Ideal for moisturizing creams and other skin care treatments.

Key Features

- Airless operation via a unique valve system
- Measured dose for viscous products
- Tamper-evident shipping clip available
- Optional head designs
- Variety of decoration options available

Customer Benefits

- Preserve Product Integrity: AVDS are designed to create an airtight seal, ensuring that no air or external contaminants compromise the delicate composition of your skin care formulation
- Unique Dispensing Technology: AVDS ensures 98% evacuation from the container, ensuring the end user gets most out of their skin care treatment
- Extended Product Lifespan: Our dispensers prolong the life of your products by minimizing exposure to oxygen and other environmental factors

Technical Information

- Dose: 4ml
- Container Sizes: 300g, 400g, 500g, 600g, 750g and 1kg
- Container Outside Diameter: 73mm and 97mm
- Container Design Options: Slim and Wide

DISPENSER PUMPS

10cc to 30cc

We understand how important it is for Quick Service Restaurants (QSRs) to provide quality food and beverages in a shorter service time than traditional restaurants. Our pumps are meticulously engineered with output control ranging from 10ml to 30ml, providing a fast and precise dispensing for your liquid products, especially those with high viscosity. Our pumps have helped global leaders to dispense products such as sauces, dressings or condiments.

Key Features

- Suitable for various viscosities to meet customer needs
- FDA approved
- Multiple dosages and endless colors available

Customer Benefits

- Hygienic Design: Crafted with FDA approved materials that meet stringent requirements, maintaining the integrity and purity of your valuable ingredients
- Accurate Dispensing: The output control mechanism allows you to precisely control the dispensed amount, ensuring consistency and minimizing waste
- Reliability and Efficiency: Built to be reliable and efficient, with durable components that withstand the demands of high-volume operations in the QSR industry

Technical Information

- Standard Closure Types: 28/400, 28/410, 38/400, 38mm+
- Dosage Options: 5ml, 7.7ml, 8ml, 10ml, 15ml, 20ml, 25ml & 30ml

DISPENSER PUMPS

100cc and More

Embrace the ease of water dispensing with our versatile and reliable dispensing pumps. With a focus on hygiene, safety and sustainability, our 100cc pumps such as the FND-125 are the perfect choice for homes, schools, offices and factories seeking a convenient and eco-friendly water dispensing solution.

Key Features

- Suitable for 5-6 gallon water containers
- FDA approved
- Multiple dosages and endless colors available

Customer Benefits

- Effortless Water Dispensing: Fixed nozzle design for an effortless water dispensing with a steady flow of refreshing drinking water. No spills, no mess—just pure convenience
- Reliable Performance: Built with robust construction and durable materials, to withstand frequent use, making them a long-lasting solution for your water dispensing needs
- Promotes Sustainability: Reduces single-use plastic waste associated with individual bottled water consumption

Technical Information

- Standard Closures: Fits standard closures with a minimum diameter of 51mm
- Dosage Options: 125ml controlled dosage
- Fits most 5-6 gallon water containers
