NF BEAUTY GROUP

We Do Beauty Packaging

**A GLOBAL
BEAUTY
PROVIDER**

At NF Beauty Group, we provide a wide range of packaging options designed to meet the needs of your brand. Our offerings include versatile and cost-effective packaging for brands across the beauty industry.

Sustainable Choices for the Future

We offer sustainable packaging solutions including PCR materials, mono-material designs, refillable formats, FSC-certified paper, and reduced material usage. Our portfolio also includes closures from non-fossil fuel sources, plant-based plastics like sugarcane PE, and packaging made with ocean-bound plastic to help keep waste out of our oceans. By balancing environmental impact, functionality, and brand aesthetics, we help create packaging that performs today while protecting tomorrow.

ECO JAR

A fully recyclable aluminum cap and glass jar combine to simplify separation, reduce waste, and enhance circular sustainability.

CELESTE LINE

Metal-free, TPE-based dispensing technology offers an elegant solution—merging high performance with recyclability.

LOOK FOR THIS ICON FOR MORE
OPTIONS IN SUSTAINABILITY

We are more than a packaging company—we are partners in your brand's journey. Specializing in skincare, hair care, and personal care packaging, we combine creativity, technology, and sustainability to craft impactful solutions.

Who We Are

HEADQUARTERED IN SUNNY CALIFORNIA, WE ENSURE EXCELLENT COMMUNICATION AND SEAMLESS PROJECT MANAGEMENT. FROM START TO FINISH OUR GLOBAL TEAM OF OVER 50 EMPLOYEES, WITH BRANCHES IN KOREA AND CHINA, OVERSEES PRODUCTION, QUALITY ASSURANCE, AND R&D, OFFERING A DIVERSE RANGE OF OPTIONS WHILE MAINTAINING STRICT QUALITY STANDARDS.

We've had the opportunity to be a key contributor of packaging solutions for hundreds of brands in the industry.

offerings.**

Featured Collection:
Mono Line

Collections bring cohesion and versatility to packaging design, offering coordinated formats across multiple fill sizes. Perfect for brands launching full product lines or multiple SKUs, collections create a unified visual identity while maintaining functional variety.

COLLECTIONS

Mono Color Line

(01) Description

This sustainable color line is crafted entirely from polypropylene (PP), making it a fully recyclable, monomaterial packaging option. It includes lipsticks, eyebrow pencils, and more, offering sleek, functional formats for color cosmetics while supporting eco-conscious initiatives.

(02) Key Features

Monomaterial, Multi-Use Component

(03) Fill Size/Item Number

- 7mm / F1 ZZ417-1
- 0.8ml / F1 ZZ417
- 1.3g / G32CH008
- 1.3g / G32CH009

Celeste Dropper

Jar (p.60) & pump (p.37) also available.

(01) Description

Celeste Dropper offers an airless, springless narrative with a unique dispensing technology that is embedded with the material of the pump. With its TPE pump, it presents a metal-free alternative and is an easy to recycle pack out optimizing convenience and simplicity.

(02) Key Features

Recyclable, TPE Spring, Monomaterial

Rotary Airless Applicators

Interchangeable heads for every use.

(01) Description

This line of rotary airless pens features a twist-to-dispense body that smoothly advances an internal piston, delivering precise and even product dosage with each turn. Designed for versatility, the system accommodates a variety of interchangeable applicator heads—from roller balls to silicone tips.

(02) Key Features

Metal Free

(03) Fill Size/Item Number

- Various Items Available

Featured Item:
Twin Pump

Pumps are a go-to packaging solution in the skincare and beauty industry, prized for their functionality, hygiene, and precise dispensing. Ideal for lotions, serums, and cleansers, pumps ensure controlled application, reducing product waste while enhancing the consumer experience.

PUMPS + BOTTLES

Center Dispense Bottles

(01)

Description

This bottle features a twist-to-open center dispense system, allowing product to be released precisely through a central orifice. The flexible body responds to pressure for intuitive control, while the locking function secures the formula when not in use.

(02)

Key Features

Ease of Use, Capless Design

(03)

Fill Size/Item Number

- Various Sizes Available
-

Bubble Cap Series

A Gen-Z / Gen Alpha favorite!

(01)

Description

This collection combines a sleek, traditional bottle body with a distinctive bubble-shaped round cap. The oversized, rounded closure creates a whimsical softness while adding a sculptural balance to the overall design.

(02)

Key Features

Ease of Use, Playful Silhouette

(03)

Syringe Airless Pump

(01) Description

This airless syringe features a dropper tip that allows for accurate application of serums, treatments, or high-value formulas. The component is fully refillable, and its locking mechanism ensures the syringe remains securely closed when not in use, protecting product integrity.

(02) Key Features

Cosmo-ceutical Feel, Precise Application

(03) Fill Size/Item Number

- 15ml / F1 ZZ418

Side Strip Pump

(01) Description

This pump bottle is designed with a vertical strip along the side wall, running from top to bottom, creating a unique opportunity for product-driven decoration. This naturally enhances the bottle's visual appeal without the need for additional decoration processes.

(02) Key Features

Unique Decoration

(03) Fill Size/Item Number

- 50ml / C3045-050

Edge Spray

(01)

Description

This sprayer features a sleek rectangular body paired with an angled actuator positioned at the top center. The ergonomic design ensures easy, one-handed operation and precise dispensing, making it ideal for hand sanitizers, mists, or other liquid treatments.

(02)

Key Features

Playful Silhouette

(03)

Fill Size/Item Number

- 50ml / F2 L006

Powder Bottle

(01) Description

This compact powder bottle is perfect for travel and at-home use, allowing consumers to mix powder with serums or liquids to activate formulas for maximum efficacy. Its design is ideal for kits featuring a variety of different powder options, giving users the flexibility to create personalized products.

(02) Key Features

DIY Consumer Experience

(03) Fill Size/Item Number

- 7g / Z2075-007

Dosage Pump

(01) Description

With a simple twist to the right or left, this pump dispenses two preset dosage options, allowing users to tailor their product usage with ease and precise control over the amount of product dispensed.

(02) Key Features

Customizable Dispensing System, Unique User Experience, Controlled Dosages

(03) Fill Size/Item Number

- 0.35cc/0.48cc / G82AS006F

- 0.2cc/0.3cc / Z3075-030

All Plastic Well-Pump

(01) Description

This well pump is crafted entirely from metal-free plastic, making it fully recyclable and an eco-conscious choice for personal care and skincare products. Its well-style design allows formulas to be easily dispensed onto cotton pads, making it perfect for toners and other pad-applied treatments.

(02) Key Features

Metal Free Pump

(03) Fill Size/Item Number

- 24/410 / F3 R217
- 28/410 / F3 R217-1
- 33/310 / F3 R217-2

All Plastic Sprayer 🌱

(01) Description

This innovative spray pump eliminates traditional metal components, using POK and a plastic spring instead of the usual spring and POM gasket. The result is a fully metal-free pump that is easier to recycle while maintaining consistent, reliable spray performance for perfumes and mists.

(02) Key Features

Metal Free Pump

(03) Fill Size/Item Number

- 20/410 / F3 R218
- 24/410 / F3 R218-1

Airless Sprayer

Uninterrupted spraying
from any angle.

(01) Description

This innovative airless sprayer delivers full 360-degree spray capability, allowing consumers to apply formulas from any angle without compromising performance. Its airless design eliminates the need for a traditional dip tube, protecting formulas from contamination and ensuring consistent dispensing.

(02) Key Features

360° Spray Capabilities

(03) Fill Size/Item Number

- Various Sizes Available

Arc Pump

(01) Description

This ergonomic airless pump features a generously sized actuator, allowing consumers to dispense product easily and comfortably with a simple press. The integrated nozzle ensures precise, controlled application with a jar-like body dimension.

(02) Key Features

Ergonomic, Large Actuator

(03) Fill Size/Item Number

- 30g / F4 AK032
- 50g / F4 AK031-1

Run-it-Back Oil Pump

Say good-bye to
messy oil spills.

(01) Description

Revolutionize your oil dispensing experience with our groundbreaking Run-it-Back Oil Pump – a triumph of technology that eliminates oil spillage. Say goodbye to the frustration of messy spills and wasted product caused by traditional oil pumps.

(02) Key Features

Consumer Experience, Preservation of Formula, Clean Application

(03) Fill Size/Item Number

- 18/410 / F3 ZZ489-1

Nimbus Mister

(01)

Description

The Nimbus Mister offers a heavenly application and experience. A fine mist creates an even refreshing coat to the skin. The rounded cap or bottle options provide a funky, fresh shape. Prime and glow with this simple modern pack.

(02)

Key Features

PET Bottle, Fine Mist Spray

(03)

Fill Size/Item Number

Featured Item:
Pilot Ampoule

DROPPERS + AMPOULES

Droppers and ampoules bring precision and sophistication to liquid skincare. Often used for serums, oils, and treatments, they offer measured, hygienic application while reinforcing a premium, apothecary aesthetic. Their sleek form elevates formulas that require care and control.

Hill Dropper

Monomaterial
option available.

(01) Description

Say goodbye to the conventional teat-shaped bulb and welcome a fresh, distinctive perspective to the skincare industry. Our unique Hill Dropper bulb not only stands out but also enhances your product application, delivering precision and control like never before.

(02) Key Features

Monomaterial, Alternative Material

(03) Fill Size/Item Number

- 30ml / Z7038-030
- 15ml / F7 XX411

Eco Auto Loading Dropper

(01) Description

An innovative dropper with a built-in auto-fill mechanism. When the cap is opened, the dropper automatically fills with product—eliminating the need to squeeze the bulb before use. Upon closing, the system resets for the next application.

(02) Key Features

Playful Silhouette

(03) Fill Size/Item Number

- 30ml / Z7074-030

Auto-Fill Dropper

(01) Description

Features an auto-fill mechanism that fills the dropper automatically upon actuation, eliminating the need for manual suction and ensuring precise, consistent dosing every time. A metal-free version is also available, offering a fully polymer construction that supports recycling.

(02) Key Features

Monomaterial, Alternative Material

(03) Fill Size/Item Number

- 30ml / Z7076-030

Twin Dose

Switch between two dosage options.

(01) Description

This innovative dropper allows consumers to select between two precise dosage options by simply dialing the button, giving full control over the amount of product dispensed. Once set, the locking function ensures the dropper stays in place during use or transport.

(02) Key Features

Playful Silhouette

(03) Fill Size/Item Number

- 15ml / B7012-015
- 15ml / B7013-015

PP Dropper with Window

(01) Description

This component features a dropper tip applicator for controlled dosing and a sleek cut-out window on the body that reveals the formula inside. The clear window not only enhances the cosmeceutical feel but also allows consumers to track usage and connect visually with the product.

(02) Key Features

Playful Silhouette

(03) Fill Size/Item Number

- 30ml / G11KP001-30ml

Moon Dropper

(01) Description

The curved design enhances grip and comfort while providing precise dispensing of serums, oils, and specialty treatments. The moon-shaped bulb dropper adds a visually striking element to any packaging line while maintaining functionality and user-friendly performance.

(02) Key Features

Featured Item:
Grinding Balm Jar

Jars are a timeless packaging choice known for their versatility, elegance, and ease of use. Perfect for creams, masks, balms, and other rich formulations, jars provide wide-mouth access for effortless application. Their adaptable design allows for endless customization, from minimalist silhouettes to elevated luxury finishes.

JARS

Eco Jar

Featuring our patented removable liner.

(01) Description

Eco-Jar combines our Easy Peel Liner, an easy to remove patented liner, with a fully recyclable double aluminum cap and glass jar. By incorporating an all aluminum cap with removeable liner, Eco-Jar is the perfect solution for easy recyclability.

(02) Key Features

All Aluminim Doublewall Cap, Patented Easy to Remove Liner, Recyclable

(03) Fill Size/Item Number

- 30g / N4001-030
- 50g / N4001-050

Calibre Jar

(01) Description

The Calibre Jar is a small glass jar with a shallow fill area. The cap has been designed to allow for artwork to be aligned when cap and jar are closed.

(02) Key Features

Artwork Alignment Capabilities, Low Profile

(03) Fill Size/Item Number

- 10g / J6 T006

Flex Jar

(01) Description

This Flex Jar is designed with a button on the top actuating plate, allowing consumers to dispense product evenly and hygienically with a single press. Made entirely from monomaterial, the jar is fully recyclable—offering brands a strong sustainability story while maintaining a luxury look and feel.

(02) Key Features
